Rev. November 2024

#A master's degree supervisory committee must be designated for all thesis-track students and may be designated for non-thesis or project students at the option of the department/program. The thesis supervisory committee must consist of a minimum of three members of the faculty who have Graduate Faculty Status, one of whom is designated as the major professor. Programs may establish a more stringent policy on supervisory committee membership, but such policies may not conflict with the University policy. College policy requires the formation of the thesis supervisory committee no later than the end of the second semester of enrollment.

A major professor/advisor must be assigned for all graduate students no later than the seventh week of their semester of admission.

Master's Program of Study Forms (POS) must be submitted to the Office of Academic Services and Intern Support (OASIS) no later than the end of the second semester of enrollment. (Example: Fall 2025 admitted students have a Spring 2026 POS submission deadline.) Some programs/departments may have earlier deadlines. Consult your department/program Graduate Handbook or contact your advisor.
